Comments

I never talked to her

I never spoke with this teaching assistant.

I did not come in contact with the TAs for this class.

I did not get to meet Lauren Fink in person, but with my experience with the other TAs I can generalize that the office hours offered by them were by far extremely helpful. They were open to answer any question and encourage us to ask for any clarification of the material.

She was at the lectures and proctored the tests. She was helpful and approachable.

i never consulted the teaching assistants so I can not answer these.

Did not interact with TA

I know several people in the class, including myself, that lost points because of system malfunctions. The teacher and TA did nothing to mend this even though it is happening to multiple students. So long as the student puts in their own work, they should be able to still receive points if it was do to a system error.

I had no interaction with this teaching assistant. Jehan Sparks answered all of my emails.

don't know who she is, so I answered the questions as neutrally as possible
