Comments

Lauren was able to teach music theory in a way that was understandable to non-music folk

Lauren is very helpful. She's patient and knowledgable and is always answering my emails when I need help with written assignments.

She was very friendly and easy to talk to. Did not feel at all intimidating and was very accommodating. However, in the lecture she gave with Brian, she only seemed to fully understand the music aspects of the course material. She broke it down in a way that felt much easier to understand than the professor's lectures but it still did not give me any understanding of the psychological aspects.

I feel like this TA is a better lecturer then the professor.

Great TA! Helped tons and is super sweet!
